0.77	N Garth Ave	Oak St (0.03 miles N)	1997	6,502
0.78	W Sexton Rd	Mikel St (0.09 miles SE)	1997	2,602

Data Note:The Traffic Profile displays up to 30 of the closest available traffic counts within the largest radius around your site. The years of the counts in the database range from 1963 to 2013. Just over 68% of the counts were taken between 2001 and 2013 and 86% of the counts were taken in 1997 or later. Traffic counts are identified by the street on which they were recorded, along with the distance and direction to the closest cross-street. Distances displayed as 0.00 miles (due to rounding), are closest to the site. A traffic count is defined as the two-way Average Daily Traffic (ADT) that passes that location.
